

## THEME 4

# THE FUTURE – HOW COULD WE COOPERATE? NATIONAL AND INTERNATIONAL PERSPECTIVES

## FinSpine – the finnish insight

Jarkko Halme, MD, Dr.med.

Spine Center, Kuopio University Hospital, Finland

FinSpine National Registry Task Force

Finnish Society of Spine Surgery

Eurospine EuSSAB committee

# National perspectives

- We want keep on developing our national [FinSpine](#)
- We aim to increase the completeness of our data
  - every hospital (performing spine surgery)
  - every surgeon (performing spine surgery)
  - every patient (receiving spine surgery)
  - every implant (used in spine surgery)
- We want [FinSpine](#) to be the best spine surgery quality registry in the world!
- We encourage the usage of [FinSpine](#) data for meaningful and impactful research for the sake of our patients

# International perspectives

- First of all, we want to cooperate!
- We are able to develop our registry with common rules in common direction
- We realize the importance and the possibilities of gathering implant data and want to cooperate in this with other registries and manufacturers
- We want to contribute to bigger common data sets
- We want to do this for the sake of our patients!

Again, thank  
you for your  
interest in  
FinSpine!
